Miss Pearl's Country Cookin'

Hazelnut & Chocolate Bread Pudding

1/4 cup unsalted butter
2 tablespoons semisweet chocolate chips
8 cups cubed challah or brioche
1/2 cup chopped hazelnuts
4 large eggs
1-1/2 cups fat-free milk
1/2 cup fat-free half-and-half
1/2 cup hazelnut spread
1/4 cup sugar
1/2 teaspoon vanilla extract
1/4 teaspoon salt
Heavy whipping cream, whipped

Microwave butter and chocolate chips until melted, 30-45 seconds; stir until smooth. Cool. In a 3- or 4-qt. slow cooker coated with cooking spray, combine bread cubes and hazelnuts. In a large bowl, combine next seven ingredients, mixing well. Add chocolate mixture to bowl; whisk until smooth. Pour egg mixture over bread and hazelnuts, gently pressing bread cubes to help them absorb liquid. Cook, covered, on low until a knife inserted in center comes out clean, 4-5 hours. Serve warm, dolloped with whipped cream. Yield: 12 servings.

Brisket & Bean Burritos

1 fresh beef brisket (2 pounds)
1 cup chopped onion
3 bacon strips, diced
1 can (8 ounces) tomato sauce
3/4 teaspoon pepper
1/4 teaspoon salt
1 can (16 ounces) refried beans
1/2 cup salsa
1 can (4 ounces) chopped green chilies
1-1/2 cups shredded Monterey Jack cheese
10 flour tortillas (10 inches), warmed

Place brisket in a 5-qt. slow cooker; top with onion and bacon. Combine tomato sauce, pepper and salt; pour over meat. Cook, covered, on low for 4-1/2 to 5 hours or until meat is tender. In a microwave-safe bowl, combine refried beans, salsa and chilies. Microwave, covered, on high until heated through, 2-3 minutes. Remove meat from slow cooker; when cool enough to handle, shred with two forks. Layer bean mixture, meat and cheese off-center on each tortilla. Fold bottom and sides of tortilla over filling and roll up. Serve immediately. Freeze option: Individually wrap burritos in foil and freeze in a resealable plastic freezer bag. To use, partially thaw overnight in refrigerator. Preheat oven to 350°. Remove burritos from plastic bag. Bake foil-wrapped burritos on a baking sheet until heated through. To reheat one burrito, remove foil and rewrap in damp paper towel; microwave on high until heated through, turning once. Let stand 15 seconds. May be frozen up to 2 months. Yield: 10 servings.

Your Weekly Love Horoscope

Aries
March 21-April 19

You surprise yourself at how easily you relinquish positions you once held dear. The truth is you simply have a change of priorities. The current situation calls for other ways of being, and you rise to the occasion. A part of you enjoys being on the cutting edge, even if it means revising your identity and repackaging your image. Friction drives action. Stasis is the real enemy. Being an agent of destiny demands your kind of boldness.

Taurus
April 20-May 20

You aim to please your friends. Therefore, it is extra difficult when one of them tells you something you do not want to hear. Before you let their message upset you, consider that if someone doesn't really care about you, it is much easier for them to stay silent than to say anything. Take the feedback as a sign of their investment in you. Discomfort can act as a catalyst for a growth spurt. If you grow with the flow, you can turn it to your ultimate advantage. Admitting your faults is the first step toward your transformation.

Gemini
May 21-June 20

The status of your public role is unclear. You experience the attention as seen through a movie camera. The frame obscures some essential elements from your view, while showcasing others in extreme close-up. Although spontaneous aid comes to you from left field today, the support you always counted on appears to vanish. In the commotion, you may be leaving a special friend or partner by the wayside. Employ your unique social gymnastics to keep everyone satisfied now. Your emotional flexibility saves the day.

Cancer
June 21-July 22

Your ability to focus is hindered because you are lost in thought. Many forces compete for your attention now. Your mind remains firmly plugged into imagining your future, while your body must cope with the rhythm of your current daily routine. A close connection with someone can help you to balance both worlds, but it cannot save you from any upheavals at work. Allow yourself some grace as you navigate the twists and turns of the day. Little by little the magical and mundane mix together, restoring harmony to your life.

Leo
July 23-August 22

You sink yourself into improving your professional output. Although you relish the enjoyable aspects of your work, something gnaws at your heart today. A long-forgotten relationship issue crops up, requiring you to clear the air. The problem might be related to your lack of boundaries between business and pleasure. The ending at the time was abrupt, but the cosmos is offering you a second chance to rectify your side. Take this opportunity to clean the wound, even if it feels awkward or unpleasant. Your willingness to engage can help everyone heal. Doing the right thing enables you to forgive and move on.

Virgo
August 23-September 22

Your family and private life may not be one and the same now. Perhaps you are wavering between taking someone home to meet the parents and keeping your personal relationships to yourself. Or you could be struggling to figure out how much of your personal history to share with your kids. It might be nice to be open with everyone about your business. On the other hand, you enjoy having some things be yours, and yours alone. Only you can decide how much to integrate various sides of your life. Transparency sounds delightful on paper, but is a whole different ballgame in practice.

Libra
September 23-October 22

Your mind is preoccupied with theoretical matters, yet practical concerns insist on receiving their fair share of your bandwidth. Although you make the mental leap to concentrate on the tasks in front of you, the second you try to focus the clarity turns muddy. Suddenly, the once-necessary action seems futile, and your thoughts begin to wander, followed by the pull to get back to work again. At some point this internal tug-of-war will resolve itself. Thankfully, you know how to be in two places at once.

Scorpio
October 23-November 21

You might get so swept up in your undertakings that you forget to look at the clock. If time is money, you could quickly find yourself in a pickle today. Avoid letting a sharp exchange of words ruin your fun when there's no need to justify your behavior. You are not being lazy; you are exercising creative efficiency. A last-ditch effort may evoke a stroke of luck, saving you from disaster. Your interpersonal relationship skills are your ticket to freedom. Your results speak for themselves.

Sagittarius
November 22-December 21

You wrestle with the relationship between roots and wings today. Motivated by freedom, you yearn to sever anything that would tie you down. The reality is you come from somewhere – and that place still has a hold on a part of you, despite the strength of your wish to be free of it. Instead of outright rejection, attempt to find a silver lining in your past. In taking another look, you may be surprised at what you uncover and how your values transform. You might even discover hidden treasure if you're willing to persevere.

Capricorn
December 22-January 19

You return to an introspective state. You may feel like composing yourself in solitude with so many thoughts swirling in your mind today. You might realize that some ideas help sharpen your concept of self and others bring you flashes of insight about all your previous accomplishments. Performing this mental inventory helps to reset your ambitions and recharge your batteries. However, you may experience push-back in your retreat if others are depending on you to solve their problems. This is a good sign, for Michel Foucault once said, Where there is power, there is resistance.

Aquarius
January 20-February 18

You tend your social network like a garden now. Water every relationship and till every connection because each element of your scene requires separate aspects of you. Where you put your attention grows. Try to emphasize the strengths you want to cultivate and leave the critique or complaint for another day. You can coax the most stubborn of volunteers with enough tender encouragement. Your voice travels like light across the fields of your future; let it shine wherever it can do the most good.

Pisces
February 19-March 20

Your work receives some public exposure today. However, the amount of recognition is not the important issue; rather, its about the sheer feeling of unknown eyes watching what you do. You may shapeshift like a chameleon in a new environment. Although trying to blend in and hide is the safest response, consider riding the wave of allure to see where it takes you. As your star rises, keep your feet firmly planted on solid ground. Comedian Gilda Radner said, Fame changes a lot of things, but it cant change a light bulb.
